

***Early resolution of disputes:
Preliminary views, early dismissal procedures and beyond***

Panel Discussion

Date: 22 March 2021

Time: 13:30-14:30 CET

The early resolution of disputes is one of the stated goals of recent reform initiatives in arbitration. While the 2018 DIS Rules and the Prague Rules endorse instruments routinely used in civil law proceedings such as preliminary assessments, the LCIA and SIAC introduced express powers of early determination/dismissal. The panel will discuss these instruments as well as their benefits and potential pitfalls.
